01.03 Application of these Rules

These Rules shall govern all competitions in which a motor vehicle may take part, organised within the territorial limits of Sri Lanka. 02.12 Competition - Any race, test, attempt at record, reliability trial, rally, certified trial or other event in which a vehicle takes part and which has a competitive nature or is given a competitive nature by publication of results.

a) *Event*: Is a single event with its own results. It may comprise (a) heat(s) and a final, free practice and qualifying practice sessions or be divided in some similar manner, but must be completed by the end of the meeting. An event is considered to have begun as from the time scheduled for the beginning of administrative checking and/or scrutineering and shall include practice and the competition itself. It shall end upon the expiry of one or other of the following time limits, whichever is the later:

- time limit for protests or appeals or the end of any hearings;
 - end of administrative checking and post-event scrutineering carried out in accordance with the present Code.
- Provided that an individual specific event, such as a gymkhana or treasure hunt, in which vehicles take part shall not be a competition for the purpose of these Rules if, on being informed in writing of the details of the proposed event, the SLAS has waived in writing the necessity for an Organising Permit (Rule 02.23) and the event takes place in accordance with such details. Competitions are "International" or "National" as hereinafter defined (see also Rule 02.13).

b) *Circuit Race*:

An event held on a closed circuit between two or more vehicles, running at the same time on the same course, in which speed or the distance covered in a given time is the determining factor.

c) *Autocross or Rally Cross*

A speed event which takes place on a combination of sealed and unsealed surfaces as part of a permanent or temporary circuit. Each competing vehicle shall be separately timed, the winner being determined by the lowest individual time recorded in one event or the lowest aggregate time over a predetermined number of heats, as specified by the organisers.

d) *Super Cross*

02.13 National Competition - A competition is National when it is open only to competitors and drivers holding an appropriate license (Rule 07.01) issued by the SLAS under whose organising permit such competition is held. A National Competition held under the SLAS permit must be entered on the annual SLAS Fixture List.

02.14 Restricted Competition - An International or National Competition is "restricted" when the competitors or drivers who take part in the competition have to comply with particular conditions other than those in Rules 02.14 and 02.15 of these Rules, for instance:

- A Competition by invitation.
- A Competition confined to vehicles of a particular make.

02.15 Closed Competition - A Competition is called "closed" when it is confined solely to members of the Club or Clubs organising the competition who are not the holders of the license of any A.C.N. other than the SLAS. The SLAS may allow several Clubs to join in the organisation of a Closed Competition.

02.16 Rallies and Cross-Country Rallies

a. *Category 1 Rally (sporting event):*

Road event with an imposed average speed, which is run entirely or partly on roads open to normal traffic. A "rally" consists either of a single itinerary which must be followed by all cars, or of several itineraries converging on a same rallying-point fixed beforehand and followed or not by a common itinerary.

The route may include one or several special stages, i.e. events organised on roads closed to normal traffic, and which together determine the general classification of the

rally. The itineraries which are not used for special stages are called road sections. Speed must never constitute a factor determining the classification on these road sections.

Events partly using roads open to normal traffic, but including special stages on permanent or semi-permanent circuits for more than 20% of the total mileage of the rally, cannot be entered in the Regularity Events section of the International Sporting Calendar, and must be considered, for all questions of procedure, as speed events.

b. *Category 2 Rally (Touring Assembly)*

Events organised with the sole aim of assembling participants as a point determined beforehand.

To distinguish these from first category rallies, second category rallies must bear as a subtitle the words "Touring Assembly".

The itinerary(ies) of a second category rally maybe compulsory, but only with simple passage controls and without any average speed being enforced on participants during the run.

One or several additional events, except speed events, can be included in the programme of a 2nd category rally, but these additional events may only take place at the point of arrival. These 2nd category rallies must not be allotted any prize money.

A second category rally is exempt from entry on the International Sporting Calendar even if the participants therein are of different nationalities, but it cannot be organised in Sri Lanka without the agreement of SLAS who must approve the regulations. The regulations must be drawn up in the same spirit as those for competitions (see Chapter IV).

If the route(s) of a second category rally run(s) through the territory of SLAS only, the participants in the said rally are not obliged to have licenses. In the opposite case, the rally must conform to the prescriptions of Article 81 (international courses) and the participants therein must possess the necessary licenses (see FIA Articles 108 and 117).

02.17 Meeting or Competition

An assembly of competitors and officials including either one or more competitions or several record attempts.

a. Parade

A parade is a display of a group of cars at a moderate speed. The following conditions must be observed:

- an official car will lead the parade and another will close it;
- these two official cars will be driven by experienced drivers under the control of the clerk of the course;
- overtaking is strictly forbidden;
- timing is forbidden;
- cars must not bear any racing numbers, except for cars that are historically associated with a particular racing number. Other means of identification of the cars may be used by the organisers (letters or numbers on side windows etc), but such identifications must be removed when the car leaves the location of the event;
- the parade(s) must be stated in the supplementary regulations and the cars taking part must be mentioned in the official programme of the event.

b. Demonstration

A demonstration is a display of a car's performance. The following conditions must be observed:

- demonstrations of more than five cars must be controlled at all times by a safety car, driven ahead of the field by an experienced driver under the control of the clerk of the course;
- all the marshals must be present at their posts;
- drivers must wear appropriate safety clothing (FIA approved clothing and helmets are strongly recommended). Organisers may specify minimum clothing standards;
- the cars must pass scrutineering on safety grounds;
- a precise entry list must be published after scrutineering;
- no passengers are allowed;
- overtaking is strictly forbidden unless under the instructions of marshals showing blue flags;
- timing is forbidden;
- the demonstration(s) must be stated in the supplementary regulations and the cars taking part must be mentioned in the official programme of the event;
- cars must not bear any racing numbers, except for cars that are historically associated with a particular racing number.

Other means of identification of the cars may be used by the organisers (letters or numbers on side windows etc), but such identification must be removed when the car leaves the location of the event.

Parades and demonstrations cannot be organised in Sri Lanka without authorisation from the SLAS.

2.18 Championship, Cup, Trophy, Challenge and Series

The SLAS National Championships, National Cups, National Trophies and National Challenges are the property of the SLAS.

a. *Championship*

A championship may be a series of events or a single event. There are national championships and international championships. Only the FIA may authorise an international championship. Only the SLAS may authorise a National Championship.

National Championships may only be organised by the SLAS or by another body with written consent from SLAS.

A maximum of one event of a National Championship maybe run outside its national territory, subject t the following conditions:

- that it is run in a country having a common border (provided that, in the case of a maritime border, the FIA deems the additional country to have the appropriate geographical relationship) with the country which is organising the national championship;
- that the technical and sporting regulations of the national championship have received the approval of the FIA;
- that the course on which the event is run has been homologated and approved by the FIA, and that all the FIA regulations on safety and medical assistance are respected;

International championships may only be organised by the FIA, or by another body with written consent from the FIA. In this case, the organiser of a Championship has the same rights and duties as the organiser of an event.

b. *Cup, Trophy, Challenge and Series*

A Cup, Trophy, Challenge or Series may comprise a number of events with the same regulations or a single event.

02.19 Certified Trial - A test in which each competitor can select his own time for carrying it out, such test being carried out under the supervision of officials appointed by the SLAS in accordance with the Supplementary Regulations for Official Certified Trials issued by the SLAS.

02.20 Race - A competition in which speed is the determining factor.

02.21 Speed Event - A race in which vehicles run individually (even though two or more individual runs may be taking place simultaneously) and in which the relative performances of the competitors are assessed by timing them over a given distance.

- b) National record**
A record established or broken in conformity with the rules established by SLAS in Sri Lanka or on the territory of another ASN with the prior authorisation of the latter. A national record is said to be a class record if it is the best result obtained in one of the classes into which the types of cars

eligible for the attempt are subdivided, or an absolute record if it is the best result, not taking the classes into account.

c) Holder of record

If the record is one established in the course of an individual attempt, the holder is the competitor to whom permission to make the attempt was granted and who made a formal application for such permission.

If the record is one established in the course of a meeting, the holder is the competitor (see Rule 02.34) in whose name the vehicle with which the performance was achieved was entered.

02.31 The Start - The start is the moment when the order to start is given to a competitor or competitors (see also Part VI).

02.32 Control Line - A control line is a line by reference to which a vehicle is timed or its performance in a competition is determined.

02.33 Starting Line - A starting line is the first control line on a course (Rule 06.01)

02.35 Parc ferme

This is the place to which the competitor is obliged to bring his car(s) as foreseen by the Supplementary Regulations.

Inside the parc ferme, only the officials assigned to surveillance may enter. No operation, checking, tuning or repair is allowed unless authorised by the same officials.

The parc ferme is compulsory in those competitions in which scrutineering is provided for.

The Supplementary Regulations of the competition shall specify the place where the parc(s) ferme(s) will be set up.

The parc ferme must be in close proximity to the finishing line/starting line, if such is provided for. At the end of the special stage covered, the area between the finishing line and the parc ferme entrance shall be placed under the parc ferme regulations.

The parc ferme shall be of adequate dimensions and well closed off to ensure that no unauthorised persons may gain access while cars are in the enclosure.

The surveillance shall be carried out by officials appointed by the organisers. These officials are responsible for the operation of the parc ferme and only they are authorised to give orders to the competitors.

The control areas of rallies will be considered as a parc ferme. No repairs or assistance may take place within the control area.

02.36 Handicap - The method laid down in the Supplementary Regulations of a competition for the purpose of equalising the chances of the competitors.

02.34 Competitor

Any person or body accepted for competition whatsoever, and necessarily holding a competitor's license issued by SLAS.

02.35 Driver

Person driving an automobile in any competition whatsoever and necessarily holding a Competition License issued by SLAS

02.36 Passenger

A person, other than the driver, carried in a vehicle during a competition. No passenger shall be permitted at speed meetings, or in speed events in competing cars either in competition or in practice other than with the express written permission of SLAS.

02.37 License

- a. A license is a certificate of registration issued to any person or body (drivers, entrants, manufacturers, teams, race officials, organisers, circuits etc) wishing to participate or taking part, in any capacity whatsoever, in competitions or record attempts governed by the present Code. The license-holder is deemed to be acquainted with the texts of the present Code, and must comply with its provisions. The principle that will apply in all cases is that any applicant who qualifies for a license within the terms of the present Code and the applicable sporting and technical rules shall be entitled to such a license.

No one may take part in a sporting event, set or break a record, if he does not possess a Competition License issued by SLAS, or an FIA license issued by an ASN other than his parent ASN with the consent of his parent ASN (see FIA Article 110).

A parent ASN is the ASN of the country of which the license-holder is a national. In the case of a professional competitor or driver as defined by Article 18 of the present Code, a parent ASN may also be the ASN of the E. U. country of which the license-holder is a bonafide permanent resident.

An FIA international license issued by an ASN is valid for international events appropriate to the level of such license provided that they are entered on the International Sporting Calendar. No license-holder may participate in an international event if it is not entered on the International Sporting Calendar.

The FIA license must be renewed annually from the 1st of January of each year.

Each national Automobile Club shall issue licenses in compliance with the FIA regulations.

The license can be issued under a pseudonym, but no one may make use of two pseudonyms.

A charge maybe made for the issue or the renewal of a license.

A national Automobile Club can issue a license to a foreigner belonging to a country not yet represented on the FIA with the FIA's prior agreement. A list of licenses issued under these conditions shall be kept at the Secretariat of the FIA.

Each Club or Association must, at the time of its admission to the FIA, undertake to recognise and keep a register of licenses thus issued.

The International Super License is drawn up and issued by the FIA to those candidates who are already holders of a national license and who apply for it. It is compulsory for certain FIA International Championships under the conditions specified by each set of regulations. To this effect the candidates for an FIA Super License must complete and sign the relevant application form. It must be renewed every year. The FIA reserves the right to refuse the issuing of a Super License and shall give reasons for any such refusal. The Super License document remains the property of the FIA, which will deliver it to each holder. The suspension or withdrawal of a license resulting from a sanction excludes its holder from the FIA Championships for the duration of such suspension or withdrawal.

- b. National licenses issued by an E. U. ASN or ASN of a comparable country by decision of the FIA, to professional competitors or drivers, as defined by Article 18 of the present Code, will allow their holders to take part in national events taking place in E. U. countries (or comparable country by decision of the FIA) without the need for special authorisation. Such national competition license will feature the E. U. flag.

Each E. U. ASN or ASN of a comparable country by decision of the FIA will ensure that insurance arrangements take these regulations into account.

Such a professional competitor or driver will be subject to the jurisdiction of the ASN of the country where he is competing, and to that of the ASN, which issued his license.

Any decision to suspend such a license will be published in the FIA Official Motor Sport Bulletin.
